At least 44 credit hours of the degree must be earned at UNC.
Students are reminded that to graduate with a Software Engineering degree, a student must maintain a 2.0 or greater cumulative Software Engineering GPA and at least a "C-" grade in each required major and specified LAC course.
Some courses require having earned a grade of "C" or better in a prerequisite ("C-" is not acceptable). Pay attention to the specific prerequisites on the next page.

Admission Requirements: Incoming New First Time and Transfer students are admitted to the Software Engineering major provided they meet the admission requirements set forth by UNC. Current UNC students who have completed at least 15 credit hours with a cumulative GPA of 2.50 or above are guaranteed admission to the Software Engineering. Current UNC students who have completed at least 15 credit hours with a cumulative GPA of 2.00-2.49 qualify to apply for admission to a Software Engineering major. Students may apply at the MCB Advising Center located in Kepner 1095.

No more than 20 credits in CS/BACS/MATH may be transferred in from another institution. Of the 20 credits, no more than 9 of these credits may be transferred in from other institutions at the 300-/400- level.

| SOFTWARE ENGINEERING PREREQUISITES: 2021-2022 CATALOG <br> Students must meet course prerequisites as stated in the current UNC catalog. <br> Check the catalog each semester you register to make certain you meet requirements. <br> A grade of "C-" or better is required in all courses, except where grade of " C " is required. |  |  |  |
