

BUSINESS ADMINISTRATION MINOR

Monfort College
of Business

Business knowledge can enhance any degree or career path.

The Business Administration Minor is designed for students who have a major other than business. This minor provides a broad exposure to business including accounting, computer information systems, finance, management and marketing. It will provide you with the basic business knowledge you need to succeed in almost any profession—whether you're an artist who dreams of owning a studio, a social worker who hopes to manage a department or any professional who will be responsible for managing budgets and wants to position themselves for future success.

WHAT YOU CAN EXPECT

A business administration minor can give you a solid foundation of business knowledge, theories, and real-world skills. You'll learn:

- Marketing concepts
- Computer information systems
- Accounting, finance, and budgeting
- Organizational behavior and human resources issues

In addition to the Business Administration Minor, MCB offers a Business Administration Minor with an Entrepreneurial Option. It requires six additional hours of study and provides a comprehensive overview of the fundamentals of entrepreneurship, marketing analysis and an understanding of small business enterprises.

"Taking courses in Business Administration prepared me to start my own business, even while I was still in college. The business world isn't easy, but the courses at MCB gave me the knowledge and understanding I needed to follow my dream."

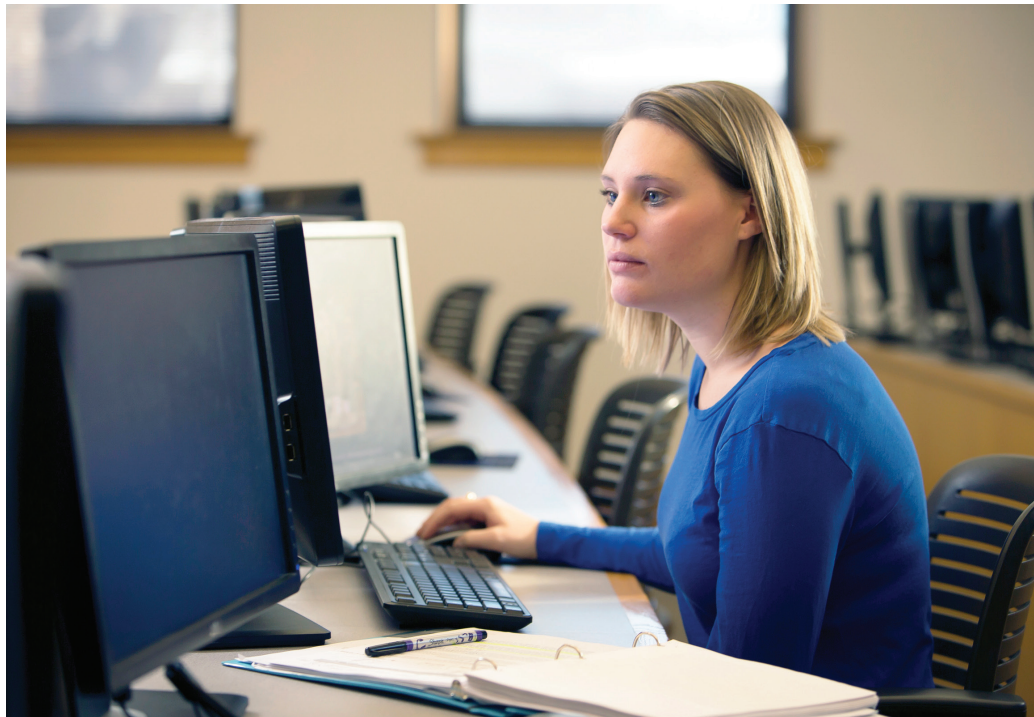

—Andrew Preble, business administration minor

The Monfort College of Business is widely recognized as a leading business school and is the only one in the nation to earn the Malcolm Baldrige National Quality Award from the Office of the President of the United States.

UNIVERSITY OF
**NORTHERN
COLORADO**

MCB connects students with professional experiences and internships.

LEARN FROM EXCEPTIONAL FACULTY WITH INDUSTRY EXPERIENCE

Our award-winning faculty includes top professors, experienced executives, and practicing business professionals. Faculty are passionate about sharing industry expertise and connections with UNC students and helping them develop their potential. In addition to traditional classroom lectures, discussions, projects and research, students will gain real-world experience by working on plans for actual clients.

GAIN THE TOOLS YOU NEED AND THE OPPORTUNITIES YOU WANT

The Monfort College of Business offers state-of-the-industry facilities, hardware, software and professional experiences students will use in the workplace. Working with a wide variety of local and regional businesses and companies, MCB connects students with professional experience and internships before graduation, giving them an advantage in the job market.

HONORED BY CREDENTIALS THAT MATTER

- For 11 consecutive years, graduating seniors of MCB have scored in the top five to 10 percent on the national Educational Testing Service Major Field Test in Business, which assesses students' core business knowledge.
- MCB is accredited by AACSB International in both business and accounting—the “gold standard” for accreditation. MCB is one of only three schools in Colorado to be accredited in both disciplines.

“I decided to minor in business administration because I’m interested in using my nutrition degree to build a business dedicated to helping others to live a healthy lifestyle. My courses have taught me how to be an ethical and competitive business person, as well as being able to manage finances for my personal well being.”

—Chelsea Snyder, business administration minor
