# IT'S MORE THAN A COLLEGE. WE'RE A COMMUNITY.

Unlike many colleges of business, where classes are scattered across campus, every business class at the Monfort College of Business is conveniently taught in one building—the beautiful Kepner Hall. There are also study areas, conference and meeting rooms and a coffee lounge in Kepner, so students and faculty can connect easily.

Choose from six majors:

- Accounting
- Computer Information Systems
- Finance
- Management
- Marketing
- General Business
- Software Engineering (joint degree program, Monfort College of Business/CIS and College of Natural and Health Sciences/Mathematics)

Accredited  
by AACSB  
International in  
*both Business  
and Accounting.*

Choose from five minors:

- Computer Information Systems
- Entrepreneurship
- Global Business
- Non-Profit Administration
- Network and Information Security Systems

If you want to continue your business education, the Monfort College of Business also offers a Master of Business (MBA) and a Master of Accounting (MAcc) program.

“The smaller class size allows for true student interaction, not only with other students but with professors and administrative staff that really take an interest in not only your academic career, but your life. Additionally I think the work that the professors are accomplishing both inside and out of the Monfort College of Business is awesome and definitely adds to the experiences inside the classroom.”

*Cierra Cummins, Class of 2013, Management*
