ACCOUNTING PROFESSIONAL EXPERIENCE OVERVIEW

- The goal of a Professional Experience in accounting is to help the student gain valuable experience and skills that will help him/her to obtain employment upon the completion of the degree.
- The requirement is also expected to benefit the UNC community and its constituents through the efforts of the MCB students.
- It is imperative that both the employment and non-employment activities have meaningful, accounting-related endeavors.
- The Professional Experience provides students with an opportunity to grow professionally, identify personal strengths and weaknesses, apply learned theory to practical situations, and gain an appreciation of the role, duties, and responsibilities of the student's chosen career.
- The Professional Experience is designed cooperatively by the Monfort College of Business faculty, Professional Experience Coordinator, field professionals, and the student to provide an experience that is mutually beneficial to both the student and the business. Businesses and their supervisors become the final link in the development of the student as a new professional. This partnership creates the ultimate educational experience.
